What's happening in Boise:

The weather in Boise is always unpredictable and the last week of September was no different! We went from a high of 71 degrees on Friday to a high of 55 degrees on Saturday! Autumn has arrived very quickly, so much so the leaves haven't yet changed, but we are still getting the inundation of pumpkin spice everything, and Oktoberfest celebrations. Some more family fun activities include pumpkin patches, corn mazes and other harvest celebrations across the valley as well as every opportunity for you to be scared just before Halloween.

The PBR (Professional Bull Riding) series comes to Nampa this month, the Boise State Bronco football team is still undefeated and taking on Hawaii, who only has one loss and lots of fun for the kids this month, so enjoy!

"This has been such a great experience! We were so stressed about moving from Utah to Idaho and they have helped us in the in-between house stage. Extremely clean apartment. Everything we needed and more! Very easy to work with. Very friendly. They do everything for you. No need to talk to any leasing office or grumpy apartment people. (They are) amazing! This is how moving should always be :) So lucky we found Boise Corporate Housing!"

October is...

Don't forget:

October is National Domestic Violence Awareness month.

Domestic violence is best understood as a pattern of abusive behaviors—including physical, sexual, and psychological attacks as well as economic coercion—used by one intimate partner against another (adult or adolescent) to gain, maintain, or regain power and control in the relationship. Batterers use of a range of tactics to frighten, terrorize, manipulate, hurt, humiliate, blame, often injure, and sometimes kill a current or former intimate partner.

This campaign raises awareness of domestic violence in order to break the cycle as well as providing resources to those dealing with this terrible behavior and abuse.

In the news... Idaho Falls renters struggle to find affordable and available housing - By Ryan Suppe

Rent prices exceed wages in the majority of Idaho counties, according to a recent report from the National Low Income Housing Coalition. And rentals are hard to come by.

https://www.postregister.com/news/local/idaho-falls-renters-struggle-to-find-affordable-and-available-housing/article_94a0e30c-e9b5-5414-a6a4-c0fa981ee93c.html

It appears that the housing crisis Boise is currently experiencing is also happening across our fine state. When a person making \$11/hour has to work a total of 60 hours a week in order to pay rent and support a small family, something has to break!
